

FE/4 3/1

7 August 1952

MEMORANDUM FOR: BD/CM

VIA : FE/PT

25X1A9a

ATTENTION : [REDACTED]

SUBJECT : Additional Slot for [REDACTED] T/O

25X1A2d2

REFERENCE : Memorandum dated 31 July 1952. Subject: Additional Slot for [REDACTED] T/O

25X1A2d2

25X1A2d2

1. The revised [REDACTED] T/O calls for three assistant supply officers, one GS-9 and two GS-7's, according to our records. The request for an additional GS-7 slot, requested in our previous memorandum, was based upon the request from the field for another junior supply officer.

2. During the past year we have built up a rather sizable stock of sensitive supplies used by the Training Division. For security reasons it has been deemed advisable to segregate these supplies from the [REDACTED] normal inventories. Furthermore, the accounting for these supplies is separate and distinct from the overt records kept by the [REDACTED]

3. Consequently, we have had to assign our most capable assistant supply officer to handle sensitive supplies. This has left the field short of one additional supply officer to handle overt supplies. The additional slot was requested for this purpose and because we have submitted papers on an individual believed capable of handling the job.
